 - (1) Children aged 3, 4, 5, 18, 19, 20, or 21 in New Mexico to the extent that its application to those children would be inconsistent with State law or practice, or the order of any court, respecting the provision of public education to children of those ages.
 - (2) (i) Children aged 18 through 21 to the extent that New Mexico law does not require that special education and related services under Part B of the Act be provided to students with disabilities who, in the last educational placement prior to their incarceration in an adult correctional facility--

- (a) The NMPED may use whatever State, local, Federal, and private sources of support are available in the State to meet the requirements of this part. For example, if it is necessary to place a child with a disability in a residential facility, the NMPED could use joint agreements between the agencies involved for sharing the cost of that placement.
- (b) Nothing in this part relieves an insurer or similar third party from an otherwise valid obligation to provide or to pay for service provided to a child with a disability.
- (c) Consistent with 300.323(c), the NMPED must ensure that there is no delay in implementing a child's IEP, including any case in which the payment source for providing or paying for special education and related services to the child is being determined.

New Mexico – Three-Tiered Licensure

The Professional Development Dossier (PDD) is the cornerstone of advancement for teachers in the Three-Tiered Licensure System. Teachers must complete the PDD in order to advance from Level I to Level II and to advance from Level II to Level III. <http://www.ped.state.nm.us/Licensure/index.html>

Professional Development Dossier (PDD) Background and Overview Assessment of Teacher Competency

Advancement to higher levels of teacher licensure in the State of New Mexico is based on the regulations in Title 6, Chapter 69, of the NM Administrative Code. These regulations outline the competencies for each level and set the parameters for the assessment system. Every teacher will submit a Professional Development Dossier (PDD) at the end of three years of successful teaching at Level I in order to advance to Level II. Teachers who seek Level III licensure may submit an additional PDD after their third year of successful teaching at Level II. The Public Education Department has established guidelines to assist teachers in demonstrating essential competencies for advancement to Level II and Level III, as specified in the regulations.

Level II Licensure

A teacher must apply for Level II licensure upon completion of at least three years of successful teaching at Level I, including successful completion of a formal mentoring program in his or her district. Teachers who have obtained a NM teacher license under interstate reciprocity must have at least two years experience teaching in New Mexico before advancing to Level II. A teacher seeking Level II Licensure must submit a PDD compiled according to the Guidelines.

Level III Licensure

A teacher is eligible to apply for Level III licensure upon completion of at least three years of successful teaching at Level II AND achievement of either an approved post-baccalaureate (master's) degree or advanced certification from the National Board for Professional Teaching Standards. Teachers who have obtained a NM teacher license under interstate reciprocity must have at least two years experience in New Mexico before advancing to Level III.

Application

A teacher applies for both Level II and Level III licensure by completing a Professional Development Dossier (PDD) and submitting it to the designated contractor of the New Mexico Public Education Department. Submission deadlines and instructions for submitting your completed PDD will be available at www.teachnm.org.

The PDD

The Professional Development Dossier (PDD) is a focused, compact collection of documentation compiled by the teacher seeking licensure advancement with support from her/his school district. The PDD documentation is a collection of classroom data (lesson descriptions, handouts, student work, video and audio recordings, photos) with explanations of that data written by the teacher, accompanied by verification and recommendation by the district superintendent. No one part of the PDD serves to fully represent a teacher's work, but the entire PDD is intended to provide evidence to determine when a teacher is qualified to advance to a higher level of licensure.

The PDD is organized into five strands. These five strands are aligned with the New Mexico Teacher Competencies and are designed to help teachers document their teaching for reviewers from outside their school and district.

- (6) how is collaboration among administrators and teachers embedded in the professional development process?

New Mexico's State Improvement Grant (SIG), Circle of Commitment, addresses four main focus areas:

- Build NMPED Capacity for system alignment thus improving student access, participation and progress in general education and the provision of FAPE;
- Strengthen the statewide system of personnel development and address under-representation of targeted groups in the professional education workforce;
- Improve student outcomes; and
- Improve family and student participation and leadership in systemic reform.

Focus areas were determined with input from a variety of stakeholder groups and individuals. This grant is congruent with the goals of the New Mexico IDEA Advisory Panel, the New Mexico Special Education State Improvement Plan, our Integrated Accountability System, as well as supporting the broader goals of the New Mexico State Department of Education.

Through this grant we will support and encourage partnerships among the New Mexico State Department of Education, the five universities which provide teacher education programs (University of New Mexico, New Mexico State University, Eastern New Mexico University, Highlands New Mexico University, and Western New Mexico University), nine regional cooperatives, local school districts and parent groups.

The public agency will carefully review the New Mexico State Performance Plan in order to remain focused on indicators for data-based decisions regarding staff development. Consideration is also given to the NMPED key indicators from focused monitoring. The focused monitoring process utilizes data from the STARS to rank school districts on the focused monitoring indicators and to make district selections for monitoring. There are five key indicator identified by a statewide group of stakeholders that covers the most important compliance issues as well as measurable aspects of educational benefit.

The key indicators are:

Indicator 1: Graduation of students with disabilities.

Indicator 3: Participation and performance of students with disabilities on statewide assessments of educational development.

Indicator 5: Least restrictive environment, emphasizing inclusion of students with disabilities in regular classes to the maximum extent appropriate with access to the general education curriculum.

Indicators 9 & 10: Identification and evaluation of students with disabilities, emphasizing possible over-identification of students as learning disabled.

VI. CURRICULUM FOR STUDENTS WITH DISABILITIES

*The *cm has the responsibility for providing educational and related services to eligible students in the least restrictive environment. Students with disabilities shall have the opportunity to participate in the general education classroom with instruction aligned with the New Mexico Standards of Excellence (§6.29.1 NMAC) to the maximum extent appropriate. The IEP Team for the student with disabilities will make appropriate decisions for each individual student.*

VII. STARS– Student Teacher Accountability and Reporting System

Authority: 34 CFR §300.640 Annual report of children served—report requirement.

- (a) **The NMPED must annually report to the Secretary on the information required by section 618 of the Act at the times specified by the Secretary.**
- (b) **The NMPED must submit the report on forms provided by the Secretary.**

Authority: 34 CFR §300.641 Annual report of children served—information required in the report. *For all specific requirements, the public agency will remain diligent in following requirements specified by the STARS system provided by the New Mexico PED and will participate in required trainings.*

The Student Teacher Accountability Reporting System (STARS) is an upgrade to the Accountability Data System (ADS) which provides greater functionality to schools, districts, and NMPED. STARS is designed to:

- Meet the current PED and federal reporting requirements;
- Allow appropriate personnel secure access to student information;
- Improve education decision making through the use of high quality data and decision support tool;
- Provide longitudinal tracking of particular individual and subgroup education progress over time; and
- Report timely and accurate education data through standardized and ad hoc reporting capabilities.

Communications about STARS will be available on the STARS website: A self-service tool designed to provide information regarding the STARS project. www.ped.state.nm.us/stars

Authority: NMAC §6.29.1.9 (H) PROCEDURAL REQUIREMENTS

H. Student/staff caseloads in gifted and special education.

- (1) The student/staff caseload shall not exceed 35:1 for a special education teacher and 60:1 for a speech-language pathologist for special education services or speech-only services, in which properly licensed special education teachers or speech-language pathologists travel from class to class or school to school, providing services to students with disabilities whose individualized education programs (IEPs) require a minimal amount of special education. (A minimal amount of special education services shall not exceed 10 per cent of the school day/week.)
- (2) The student/staff caseload shall not exceed 24:1 for a special education teacher and 35:1 for a speech-language pathologist for special education services or speech-only services which properly-licensed special education teachers or speech-language pathologists provide to students with disabilities whose IEPs require a moderate amount of special education. (A moderate amount of special education services shall be less than 50 per cent of the school day.)
- (3) The student/staff caseload shall not exceed 15:1 for special education services in which properly licensed special education teachers provide services to students with disabilities whose IEPs require an extensive amount of special education for a portion of the school day as appropriate to implement the plan. (An extensive amount of special education services shall be provided 50 per cent or more of the school day.)
- (4) The student/staff caseload shall not exceed 8:1 for special education services in which a properly licensed professional provides services to students with disabilities whose IEPs require a maximum amount of special education. (A maximum amount of special education services shall be provided in an amount approaching a full school day.)
- (5) The student/adult caseload shall not exceed 4:1 for center-based special education services in which one of the adults in the program is a properly licensed professional providing three- and four-year old children with the amount of special education needed to implement each child's IEP.

This includes a child who will turn three at any time during the school year, and who is determined to be eligible for Part B services. The child may be enrolled in a Part B preschool program at the beginning of the school year if the parent so chooses, whether or not the child has previously been receiving Part C services.

- (6) The student/adult caseload shall not exceed 2:1 for center-based special education services in which three- and four-year old children have profound educational needs. This includes children who will turn three at any time during the school year, and who are determined to be eligible. The child may be enrolled in a Part B preschool program at the beginning of the school year if the parent so chooses, whether or not the child has previously been receiving Part C services.
- (7) Adequate student/staff caseloads shall be provided to appropriately address needs identified in the IEPs. Paraprofessionals and assistants who are appropriately trained and supervised in accordance with applicable department licensure rules or written department policy may be used to assist in the provision of special education and related services to students with disabilities under Part B of IDEA.
- (8) If the student/staff caseload ratio exceeds the standards provided above, a request for waiver shall be submitted to the department for review and approval by the secretary.

CASE LOADS

FULL TIME EQUIVALENTS (FTE): Teachers - How to Figure Caseload Maximums

For teachers with position codes:

- 94 regular education teacher of gifted
- 95 related service caseload teacher
- 96 preschool teacher
- 97 special education teacher

A Level Student - minimum

- each "A or minimum" level student 1/35 or .029 FTE (receives sp ed service 10% or less of the day = level 1 on STAR)
- each "A or minimum" related service student 1/60 or .017 FTE (must be under staff at code 95)

B Level Student - moderate

- each "B or moderate" level student 1/24 or .042 FTE (receives sp ed service less than half of the day = level 2 on STARS)
- each "B or moderate" related service student 1/35 or .029 FTE (must be under staff at code 95)

C Level Student – extensive - half day or more

- each "C or extensive" level student 1/15 or .067 FTE (receives sp ed service half a day or more = level 3 on STARS)

D Level Student – maximum – all day or approaching full day

- each "D or maximum" level student 1/8 or .125 FTE (receives sp ed service all day or approaching a full day = level 4 on STARS)

The FTE generated by the students cannot exceed the FTE for their caseload teacher unless a waiver is granted. These caseload waivers are granted by the [district] Superintendent of Public Instruction on a case-by-case basis.

FULL TIME EQUIVALENTS (FTE): Related Service - How To Figure Caseload Maximums

1) FTE is rounded to two decimal places.

2) Figure out the total time you are hiring this person, using one of these methods.

- **By hours per week:** If you are paying this person for preparation time and travel time per week, in addition to direct service time, include this in your total. Divide this total by the LEA workweek for teachers. This is the total FTE for this person.

- **By total days:** Figure out the total number of days you are hiring this person for a year. Divide by the total number of days in a typical teacher contract. This is the total FTE for this person.
- **By total hours:** Figure out the total numbers of hours you are hiring this person for a year. Divide by the total number of hours in a typical teacher contract. This is the total FTE for this person.

3) If this person is seeing any students as a caseload teacher (that is, if this person is the child's only special education teacher) this person will have a **caseload FTE**.

$$\text{FTE for A-level service} = \frac{\text{\# of students}}{\text{(position code 95) 60}}$$

$$\text{FTE for B-level service} = \frac{\text{\# of students}}{\text{(position code 95) 35}}$$

$$\text{FTE for 3Y/4Y/5Y itinerant* service} = \frac{\text{\# of hours spent with these students}}{\text{LEA work week}}$$

*FTE for 3Y/4Y/5Y service for a teacher at a center-based program on the public school campus is not audited. Instead, we audit the adult-to-student ratio as required by state regulations. Add them together. This is the **caseload FTE** for this person.

4) Finally, figure related service FTE.

- If the remainder of this person's service is only students who are five or older prior to September 1, then do the following:
Total FTE minus caseload FTE = **related service FTE**

- If the remainder of this person's service includes some 3Y/4Y/5Y students, then do the following:
 $\frac{\text{time for 3Y/4Y/5Y related service}}{\text{LEA work week}} = 3Y/4Y/5Y \text{ related service FTE (unfunded)}$

$$\text{Total FTE minus caseload FTE minus 3Y/4Y/5Y rel serv FTE} = \text{related service FTE}$$

Authority: NMSA 1978 22.2.8.1 Length of school day; minimum.

- Except as otherwise provided in this section, regular students shall be in school-directed programs, exclusive of lunch, for a minimum of the following:
 - kindergarten, for half-day programs, two and one-half hours per day or four hundred fifty hours per year or, for full-day programs, five and one-half hours per day or nine hundred ninety hours per year;
 - grades one through six, five and one-half hours per day or nine hundred ninety hours per year; and
 - grades seven through twelve, six hours per day or one thousand eighty hours per year.
- Thirty-three hours of the full-day kindergarten program may be used for home visits by the teacher or for parent-teacher conferences. Twenty-two hours of grades one through five programs may be used for home visits by the teacher or for parent-teacher conferences.
- Nothing in this section precludes a local school board from setting length of school days in excess of the minimum requirements established by Subsection A of this section.
- The state superintendent [secretary] may waive the minimum length of school days in those districts where such minimums would create undue hardships as defined by the state board [department].

VIII. SPECIAL EDUCATION ACCOUNTABILITY SYSTEM (SEAS)

Authority: 34 CFR §300.213 Records regarding migratory children with disabilities.

The LEA must cooperate in the Secretary's efforts under section 1308 of the ESEA to ensure the linkage of records pertaining to migratory children with disabilities for the purpose of electronically exchanging, among the States, health and educational information regarding those children.

Authority: 34 CFR §300.157 Performance goals and indicators.

The NMPED must--

- (a) Have in effect established goals for the performance of children with disabilities in New Mexico that--
 - (1) Promote the purposes of this part, as stated in §300.1;
 - (2) Are the same as the State's objectives for progress by children in its definition of adequate yearly progress, including the State's objectives for progress by children with disabilities, under section 1111(b)(2)(C) of the ESEA, 20 USC 6311;
 - (3) Address graduation rates and dropout rates, as well as such other factors as the State may determine; and
 - (4) Are consistent, to the extent appropriate, with any other goals and academic standards for children established by the NMPED.

 - (ii) Beginning in the 2013-2014 school year, IEP academic goals in English language arts and mathematics for students in grades four through 12 must align with the English Language Arts Common Core Standards (6.29.13 NMAC) and the Mathematics Common Core Standards (6.29.14 NMAC).
- (b) Have in effect established performance indicators the NMPED will use to assess progress toward achieving the goals described in paragraph (a) of this section, including measurable annual objectives for progress by children with disabilities under section 1111(b)(2)(C)(v)(II)(cc) of the ESEA, 20 USC 6311; and
- (c) Annually report to the Secretary and the public on the progress of the State, and of children with disabilities in New Mexico, toward meeting the goals established under paragraph (a) of this section, which may include elements of the reports required under section 1111(h) of the ESEA.

Authority: 34 CFR §300.170 Suspension and expulsion rates. (See also Chapter 7 - Discipline)

- (a) **General.** The NMPED must examine data, including data disaggregated by race and ethnicity, to determine if significant discrepancies are occurring in the rate of long-term suspensions and expulsions of children with disabilities--
 - (1) Among LEAs in New Mexico; or
 - (2) Compared to the rates for nondisabled children within those agencies.
- (b) **Review and revision of policies.** If the discrepancies described in paragraph (a) of this section are occurring, the NMPED must review and, if appropriate, revise (or require the affected State agency or LEA to revise) its policies, procedures, and practices relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards, to ensure that these policies, procedures, and practices comply with the Act.

Authority: 34 CFR §300.229 Disciplinary information.

- (a) The State may require that LEA include in the records of a child with a disability a statement of any current or previous disciplinary action that has been taken against the child and transmit the statement to the same extent that the disciplinary information is included in, and transmitted with, the student records of nondisabled children.

- (b) The statement may include a description of any behavior engaged in by the child that required disciplinary action, a description of the disciplinary action taken, and any other information that is relevant to the safety of the child and other individuals involved with the child.
- (c) If the State adopts such a policy, and the child transfers from one school to another, the transmission of any of the child's records must include both the child's current IEP and any statement of current or previous disciplinary action that has been taken against the child.

Authority: 34 CFR §300.173 Over identification and disproportionality.

The NMPED has in effect, consistent with the purposes of this part and with section 618(d) of the Act, policies and procedures designed to prevent the inappropriate over-identification or disproportionate representation of children, by race and ethnicity, as children with disabilities, including children with a particular impairment as described in §300.8. (See Chapter 3 -Impairments).

§300.646 Disproportionality.

- (a) **General.** Each State that receives assistance under Part B of the Act, and the Secretary of the Interior, must provide for the collection and examination of data to determine if significant disproportionality based on race and ethnicity is occurring in New Mexico and the LEAs of New Mexico with respect to--
 - (1) The identification of children as children with disabilities, including the identification of children as children with disabilities in accordance with a particular impairment described in section 602(3) of the Act;
 - (2) The placement in particular educational settings of these children; and
 - (3) The incidence, duration, and type of disciplinary actions, including suspensions and expulsions.
- (b) **Review and revision of policies, practices, and procedures.** In the case of a determination of significant disproportionality with respect to the identification of children as children with disabilities, or the placement in particular educational settings of these children, in accordance with paragraph (a) of this section, the NMPED or the Secretary of the Interior must--
 - (1) Provide for the review and, if appropriate revision of the policies, procedures, and practices used in the identification or placement to ensure that the policies, procedures, and practices comply with the requirements of the Act.
 - (2) Require the LEA, if identified under paragraph (a) of this section to reserve the maximum amount of funds under section 613(f) of the Act to provide comprehensive coordinated early intervening services to serve children in the LEA, particularly, but not exclusively, children in those groups that were significantly over identified under paragraph (a) of this section; and
 - (3) Require the LEA to publicly report on the revision of policies, practices, and procedures described under paragraph (b)(1) of this section.

Authority: NMAC §6.31.2.9 PUBLIC AGENCY RESPONSIBILITIES:

E. Significant disproportionality.

- (1) Pursuant to CFR 34 §300.646, the public agency must provide for the collection and examination of data to determine if significant disproportionality, based on race and ethnicity, is occurring with respect to:
 - (a) the identification of children as children with disabilities, including the identification of children as children with disabilities in accordance with a particular impairment as defined by 34 CFR §300.8;
 - (b) the placement in particular educational settings of these children; and
 - (c) the incidence, duration and type of disciplinary actions, including suspensions and expulsions.
- (2) The public agency must reserve the 15 percent early intervening funds if they are identified as having data that is significantly disproportionate in any one of the following categories:
 - (a) suspension of students with disabilities;
 - (b) over-identification of students with disabilities;
 - (c) over-identification of students with a particular impairment as defined by 34 CFR §300.8; and
 - (d) placement of students with disabilities in a particular setting.
- (3) Review and revision of policies, practices and procedures. In the case of a determination of significant disproportionality with respect to the identification of children as children with disabilities, or the placement in particular educational settings of these children, in accordance with Paragraph (1) of this subsection, the *cm must:

- (a) provide for the review and, if appropriate, revision of the policies, procedures and practices used in the identification or placement to ensure that the policies, procedures and practices comply with the requirements of the IDEA; and
- (b) require any LEA identified under Paragraph (1) of this subsection to reserve the maximum amount of funds under 34 CFR §300.226 to provide comprehensive coordinated early intervening services to serve children in the LEA, particularly, but not exclusively, children in those groups that were significantly over identified under Paragraph (1) of this subsection; and
- (c) require the LEA to publicly report on the revision of policies, practices and procedures described under Subparagraph (b) of this paragraph.

If disproportionality is identified consistently and not corrected, the PED may impose corrective actions on the LEA. Corrective actions range in severity from frequent monitoring visits up to the withholding of funds. If funds are withheld, the NMPED may use the funds to provide services to students and staff members through alternative arrangements.

In addition to the requirements listed in §300.646 above, the LEA may convene a committee of professionals and interested local community members to develop an action plan to address the issue of disproportionality. The committee will be charged with the following:

- a. *collection and analysis of local data by campus to identify possible patterns in types of SAT interventions tried, length of time interventions were tried before referrals, grade level of students, staff over-identification, special education evaluations, students new to the district, etc.*
- b. *based on an analysis of the data, identify target area(s) for response through a detailed action plan with dates due, personnel responsible, evaluation timelines, etc.*
- c. *in the action plan, list specific activities to address the targeted area(s): examples may include, but are not limited to:*
 - *technical assistance from the regional education cooperatives;*
 - *advice from experts to address the areas in need of assistance, including specific plans to address each subject area within a specified period of time;*
 - *assistance in identifying and implementing professional development, instructional strategies, and methods of instruction based on scientifically-based research;*
 - *designating and using distinguished superintendents, principals, special education administrators, special education teachers, and other teachers to provide advice, technical assistance, and support;*
 - *devise additional approaches to providing technical assistance, such as collaborating with institutions of higher education, national centers of technical assistance, and private providers of scientifically-based technical assistance; and*
- d. *set timelines for the action plan to reconvene and analyze progress and the implementation of the strategies chosen.*

The NMPED may impose the following sanctions if persistent disproportionality continues.

- (1) *on-site review for failure to meet appropriate services, program or compliance requirements;*
- (2) *required fiscal audit of specific program(s) and/or of the LEA, paid for by the LEA;*
- (3) *required submission of corrective action(s), including compensatory services, paid for by the LEA;*
- (4) *required technical assistance from the regional education cooperatives, paid for by the LEA, which may include:*
 - (5) *public release of program or compliance review findings;*
 - (6) *special investigation and/or follow-up verification visits;*
 - (7) *required public hearing conducted by the local school board of trustees;*
 - (8) *assignment by the NMPED of a special purpose monitor, conservator, or management team, paid for by the LEA;*
 - (9) *hearing before the commissioner of education or designee;*
 - (10) *reduction in payment or withholding of funds; and/or*
 - (11) *lowering of the special education compliance status and/or the accreditation rating of the LEA.*

Special Education Accountability System (SEAS)

Website: http://www.ped.state.nm.us/seo/district_data/SEAS%207.12%2007.pdf

In December 2005, New Mexico PED was required to submit a State Performance Plan (SPP) to the United States Department of Education Office of Special Education Programs (OSEP). The SPP included a combination of 20 Results and Compliance Indicators established by OSEP that spans six fiscal years (2005 – 2006 through 2010 - 2011). Since the IDEA is due to be reauthorized in the near future, the SPP has been extended for two additional years (2011-2012 and 2012-2013). The SPP evaluates New Mexico’s efforts to implement the requirements and purposes of Part B of the IDEA and describes how the State will improve its implementation.

As part of the SPP, each state was required to set targets for each of the Indicators that did not have a target mandated by OSEP. Each year, every state must report its progress to OSEP and the public on the progress of students with disabilities in the state. Specifically, New Mexico must report, in their Annual Performance Report (APR), their progress in meeting the measurable and rigorous targets established in the SPP. Based on the information in the State’s APR and any other information available, OSEP applies the following Determinations to State’s:

- (i) Meets Requirements of Part B of the Act,
- (ii) Needs Assistance in Implementing Part B of the Act,
- (iii) Needs Intervention in Implementing Part B of the Act; or
- (iv) Needs Substantial Intervention in Implementing Part B of the Act.

Included in the State’s General Supervision, Monitoring, and Enforcement requirements under 34 CFR §§300.149 and 300.600, the State must review every district each year on the SPP performance. According to the IDEA, states are required to make “Determinations” annually on the performance of the LEAs. States must use the same four categories as OSEP, listed above, in making Determinations of the status of local programs.

The General Supervision and Accountability System is an evolving process. As a result of the reauthorization of IDEA, increased accountability at the state and local level, and changes in OSEP’s Monitoring Priorities, New Mexico has **moved from a Focused Monitoring System to an Accountability System**. New Mexico’s Special Education Accountability System (SEAS) monitors and reviews all LEA’s compliance and performance data annually, is similar to the No Child Left Behind (NCLB) accountability system, and mirrors the LEA’s Educational Plan for Student Success (EPSS) improvement plan process, and involves stakeholders (IDEA Panel) in the process.

The primary focus of the State’s monitoring activities under 34 CFR §300.600(b) must be on:

- **Results**
 - o Improving educational results and functional outcomes for all students with disabilities; and
- **Compliance**
 - o Ensuring that public agencies meet the program requirements under Part B of the act, with particular emphasis on those requirements that are most closely related to improving the educational results for students with disabilities.

New Mexico’s SEAS focuses on student performance outcomes and the compliance requirements of the IDEA.

This Accountability System Manual is the tool designed to provide the structure for the State, LEAs, RECs, and State Supported Educational Programs in the area of General Supervision. The SEAS is the system that provides the assurances to OSEP that the state is carrying out its responsibilities, using quantifiable indicators in each of the priority areas listed below, and using such qualitative indicators as are needed to adequately measure performance and compliance in those areas.

1. Provisions of Free and Appropriate Public Education (FAPE) in the Least Restrictive Environment (LRE).
2. State exercise of General Supervision including:
 - a. child find
 - b. effective monitoring
 - c. use of resolution meetings
 - d. mediation; and
 - e. a system of transition services.

3. Disproportionate representation of racial and ethnic groups in special education and related services, to the extent that the representation is the result of inappropriate identification.

IX. COLLABORATION WITH AGENCIES REGARDING MOUs

The NMPED has worked collaboratively with several agencies to develop memoranda of understandings (MOU) or agreement memoranda (AM) to assist in the coordination of the state agencies in providing services to students with disabilities. The LEA will abide by the requirements of each memorandum, including:

Statewide Transition Coordinating Council: <http://www.ped.state.nm.us/seo/transition/stcc.fact.sheet.pdf>

Family Infant Toddler Program of the New Mexico Department of Health and the New Mexico State Department of Education: <http://www.ped.state.nm.us/seo/preschool/ta.parts.i.ii.suppl.pdf>

The New Mexico School for the Deaf (NMSD) and the New Mexico Public Education Department (PED) formed the New Mexico Task Force on the Education of the Deaf and Hard of Hearing:

X. FUNDING

A. Federal Funds

Authority: 34 CFR §300.226 Early intervening services.

- (a) **General.** The LEA may not use more than 15 percent of the amount the LEA receives under Part B of the Act for any fiscal year, less any amount reduced by the LEA pursuant to §300.205, if any, in combination with other amounts (which may include amounts other than education funds), to develop and implement coordinated, early intervening services, which may include interagency financing structures, for students in kindergarten through grade 12 (with a particular emphasis on students in kindergarten through grade three) who have not been identified as needing special education or related services, but who need additional academic and behavioral support to succeed in a general education environment.
- (b) **Activities.** In implementing coordinated, early intervening services under this section, the LEA may carry out activities that include--
 - (1) Professional development (which may be provided by entities other than the LEAs) for teachers and other school staff to enable such personnel to deliver scientifically based academic and behavioral interventions, including scientifically based literacy instruction, and, where appropriate, instruction on the use of adaptive and instructional software; and
 - (2) Providing educational and behavioral evaluations, services, and supports, including scientifically based literacy instruction.
- (c) **Construction.** Nothing in this section shall be construed to either limit or create a right to FAPE under Part B of the Act or to delay appropriate evaluation of a child suspected of having a disability.
- (d) **Reporting.** If the LEA develops and maintains coordinated, early intervening services under this section must annually report to the NMPED on--
 - (1) The number of children served under this section who received early intervening services; and
 - (2) The number of children served under this section who received early intervening services and subsequently receive special education and related services under Part B of the Act during the preceding two year period.
- (e) **Coordination with ESEA.** Funds made available to carry out this section may be used to carry out coordinated, early intervening services aligned with activities funded by, and carried out under the ESEA if those funds are used to supplement, and not supplant, funds made available under the ESEA for the activities and services assisted under this section.

Authority: NMAC §6.31.2.9 PUBLIC AGENCY RESPONSIBILITIES:

D. Early intervening services set aside funds. Fifteen percent (15%) set aside.

- (1) Pursuant to 34 CFR §§300.208(a)(2) and 300.226, LEAs may use up to fifteen percent of the amount the LEA receives under Part B of IDEA to implement early intervening services for children with or without

disabilities in kindergarten through grade 12 with particular emphasis on children in kindergarten through grade three.

- (2) Prior to the implementation or use of these set aside funds, the LEA must have on record with the department an approved plan for use of these funds as described by 34 CFR §300.226(b) and how such activities will be coordinated with regional education cooperatives as described in 34 CFR §300.226(e), if applicable.
- (3) The LEA plan for use of set aside funds shall be submitted as an addendum to its annual application for Part B funding. If the LEA determines to implement a set aside plan after the initial application, a request for implementation of a set aside plan must be submitted for approval 60 days before the implementation of the plan.
- (4) Each LEA that develops and maintains coordinated, early intervening services (CEIS) must report annually to the department as provided in 34 CFR §300.226(d).

The LEA may use up to 15% of the entitlement received under IDEA to develop CEIS. Federal funds always retain their identity. The LEA will account for the receipt and expenditure of federal funds, and ensure that federal funds are used for allowable costs in accordance with federal fiscal requirements. The LEA will use a local option code that uniquely identifies the cost objective used to account for the expenditure of federal, state, and local funds on coordinated, early intervening services. The use of local and state funds for coordinated, early intervening services that were previously expended on special education services may result in an apparent decline in Maintenance of Effort (MOE). The LEA will maintain documentation (identification criteria, needs assessment, improvement plan, budget, etc.) that adequately describes the program implemented.

Authority: 34 CFR §300.162 Supplementation of State, local, and other Federal funds.

- (a) **Expenditures.** Funds paid to a State under this part must be expended in accordance with all the provisions of this part.
- (b) **Prohibition against commingling.**
 - (1) Funds paid to a State under this part must not be commingled with State funds.
 - (2) The requirement in paragraph (b)(1) of this section is satisfied by the use of a separate accounting system that includes an audit trail of the expenditure of funds paid to a State under this part. Separate bank accounts are not required. (See 34 CFR §76.702 (Fiscal control and fund accounting procedures)).
- (c) **State-level nonsupplanting.**
 - (1) Except as provided in §300.202, funds paid to a State under Part B of the Act must be used to supplement the level of Federal, State, and local funds (including funds that are not under the direct control of the NMPED or LEAs) expended for special education and related services provided to children with disabilities under Part B of the Act, and in no case to supplant those Federal, State, and local funds.
 - (2) If the State provides clear and convincing evidence that all children with disabilities have available to them FAPE, the Secretary may waive, in whole or in part, the requirements of paragraph (c)(1) of this section if the Secretary concurs with the evidence provided by the State under §300.164.

Authority: 34 CFR §300.163 Maintenance of State financial support.

- (a) **General.** A State must not reduce the amount of State financial support for special education and related services for children with disabilities, or otherwise made available because of the excess costs of educating those children, below the amount of that support for the preceding fiscal year.
- (b) **Reduction of funds for failure to maintain support.** The Secretary reduces the allocation of funds under section 611 of the Act for any fiscal year following the fiscal year in which the State fails to comply with the requirement of paragraph (a) of this section by the same amount by which the State fails to meet the requirement.
- (c) **Waivers for exceptional or uncontrollable circumstances.** The Secretary may waive the requirement of paragraph (a) of this section for a State, for one fiscal year at a time, if the Secretary determines that--
 - (1) Granting a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State; or
 - (2) The State meets the standard in §300.164 for a waiver of the requirement to supplement, and not to supplant, funds received under Part B of the Act.

- (d) **Subsequent years.** If, for any fiscal year, a state fails to meet the requirement of paragraph (a) of this section, including any year for which the State is granted a waiver under paragraph (c) of this section, the financial support required of the State in future years under paragraph (a) of this section shall be the amount that would have been required in the absence of that failure and not the reduced level of the State's support.

Authority: 34 CFR §300.164 Waiver of requirement regarding supplementing and not supplanting with Part B funds.

- (a) Except as provided under §§300.202 through 300.205, funds paid to a state under Part B of the Act must be used to supplement and increase the level of Federal, State, and local funds (including funds that are not under the direct control of NMPED or the LEAs) expended for special education and related services provided to children with disabilities under Part B of the Act and, in no case, to supplant those Federal, State, and local funds. A state may use funds it retains under §300.704(a) and (b) without regard to the prohibition on supplanting other funds.
- (b) If a State provides clear and convincing evidence that all eligible children with disabilities throughout the State have FAPE available to them, the Secretary may waive, for a period of one year or less, the requirement under §300.162 (regarding state-level non-supplanting), if the Secretary concurs with the evidence provided by the State.
- (c) If a State wishes to request a waiver under this section, it must submit a written request to the Secretary containing—
- (1) An assurance that FAPE is currently available to all eligible children with disabilities throughout the State and will remain available throughout the period that the waiver is in effect, regardless of the public agency responsible for providing FAPE to them. The assurance must be signed by an official who has the authority to provide that assurance, as it applies to all eligible children with disabilities in the State;
 - (2) All of the evidence ~~that~~ the State wishes the Secretary to consider in determining whether all eligible children with disabilities have FAPE available to them, setting forth in detail--
 - (i) The basis on which the State has concluded that FAPE is available to all eligible children in the State; and
 - (ii) The procedures ~~that~~ the State will implement to ensure that FAPE remains available to all eligible children in the State, which must include--
 - (A) The State's procedures under §300.111 for ensuring that all eligible children are identified, located and evaluated;
 - (B) The State's procedures for monitoring public agencies to ensure that they comply with all requirements of this Part;
 - (C) The State's complaint procedures under §§300.151 through 300.153; and
 - (D) The State's hearing procedures under §§300.511 through 300.516 and §§300.530 through 300.536;
 - (3) A summary of all State and Federal monitoring reports and State complaint decisions (see §§300.151 through 300.153) and due process hearing decisions (see §§300.511 through 300.516 and §§300.530 through 300.536), issued within three years prior to the date of the State's request for a waiver under this section, which includes any findings that FAPE has not been available to one or more eligible children, and evidence that FAPE is now available to all children addressed in those reports or decisions; and
 - (4) Evidence that the State, in determining that FAPE is currently available to all eligible children with disabilities in the State, has consulted with the State advisory panel under §300.167.
- (d) If the Secretary determines that the request and supporting evidence submitted by the State make a **prima facie** showing that FAPE is, and will remain, available to all eligible children with disabilities in the State, the Secretary, after notice to the public throughout the State, conducts a public hearing at which all interested persons and organizations may present evidence regarding the following issues:
- (1) Whether FAPE is currently available to all eligible children with disabilities in the State.
 - (2) Whether the State will be able to ensure that FAPE remains available to all eligible children with disabilities in the State if the Secretary provides the requested waiver.
- (e) Following the hearing, the Secretary, based on all submitted evidence, will approve a waiver, in whole or in part, for a period of one year, if the Secretary finds that the State has provided clear and convincing evidence that FAPE is currently available to all eligible children with disabilities in the State, and the

State can ensure that FAPE remains available to all eligible children with disabilities, ~~in the State~~ if the Secretary grants the requested waiver.

- (f) A State may receive a waiver of the requirement of section 612(a)(18)(A) of the Act and §300.164, if it satisfies the requirements of paragraphs (b) through (e) of this section.
- (g) The Secretary may grant subsequent waivers for a period of one year each, if the Secretary determines that the State has provided clear and convincing evidence that all eligible children with disabilities throughout the State have, and will continue to have, FAPE available to them during the one-year period of the waiver.

Subpart C – *cm Eligibility

Authority: 34 CFR §300.202 Use of amounts.

(a) **General.** Amounts provided to the LEA under Part B of the Act--

- (1) Must be expended in accordance with the applicable provisions of this Part;
- (2) Must be used only to pay the excess costs of providing special education and related services to children with disabilities, consistent with paragraph (b) of this section; and
- (3) Must be used to supplement State, local, and other Federal funds and not to supplant those funds.

(b) **Excess cost requirement.**

(1) **General.**

- (i) The excess cost requirement prevents the LEA from using funds provided under Part B of the Act to pay for all of the costs directly attributable to the education of a child with a disability, subject to paragraph (b)(1)(ii) of this section.
 - (ii) The excess cost requirement does not prevent the LEA from using Part B funds to pay for all of the costs directly attributable to the education of a child with a disability in any of the ages 3, 4, 5, 18, 19, 20, or 21, if no local or State funds are available for nondisabled children of these ages. However, the LEA must comply with the nonsupplanting and other requirements of this part in providing the education and services for these children.
- (2) (i) The LEA meets the excess cost requirement if it has spent at least a minimum average amount for the education of its children with disabilities before funds under Part B of the Act are used.
 - (ii) The amount described in paragraph (b)(2)(i) of this section is determined in accordance with the definition of excess costs in §300.16. That amount may not include capital outlay or debt service.
- (3) If two or more LEAs jointly establish eligibility in accordance with §300.223, the minimum average amount is the average of the combined minimum average amounts determined in accordance with the definition of excess costs in §300.16 in those agencies for elementary or secondary school students, as the case may be.

Authority: 34 CFR §300.16 Excess costs. Excess costs means those costs that are in excess of the average annual per-student expenditure in the LEA during the preceding school year for an elementary school or secondary school student, as may be appropriate, and that must be computed after deducting--

(a) Amounts received--

- (1) Under Part B of the Act;
- (2) Under Part A of title I of the ESEA; and
- (3) Under Parts A and B of title III of the ESEA; and

(b) Any State or local funds expended for programs that would qualify for assistance under any of the parts described in paragraph (a) of this section, but excluding any amounts for capital outlay or debt service. (see Appendix A to Part 300 for an example of how excess cost must be calculated)

Authority: 34 CFR §300.221 Notification of LEA and State agency in case of ineligibility.

If the NMPED determines that the LEA or State agency is not eligible under Part B of the Act, then the NMPED must—

- (a) Notify the LEA or State agency of that determination; and
- (b) Provide the LEA or State agency with reasonable notice and an opportunity for a hearing

Authority: NMAC §6.31.2.9 PUBLIC AGENCY RESPONSIBILITIES:

- G. Notification of LEA in case of ineligibility. Pursuant to 34 CFR §300.221, if the department determines that the LEA is not eligible under Part B of the act, the department shall notify the LEA of that determination and provide the LEA with reasonable notice and an opportunity for a hearing under 34 CFR §76.401(d).

Authority: 34 CFR §300.222 LEA and State agency compliance.

- (a) **General.** If the NMPED, after reasonable notice and an opportunity for a hearing, finds that the LEA or State agency that has been determined to be eligible under this subpart is failing to comply with any requirement described in §§300.201 through 300.213, the NMPED must reduce or must not provide any further payments to the LEA or State agency until the NMPED is satisfied that the LEA or State agency is complying with that requirement.
- (b) **Notice requirement.** Any State agency or LEA in receipt of a notice described in paragraph (a) of this section must, by means of public notice, take the measures necessary to bring the pendency of an action pursuant to this section to the attention of the public within the jurisdiction of the agency.
- (c) **Consideration.** In carrying out its responsibilities under this section, the NMPED must consider any decision resulting from a hearing held under §§300.511 through 300.533 that is adverse to the LEA or State agency involved in the decision.

Authority: NMAC §6.31.2.9 PUBLIC AGENCY RESPONSIBILITIES:

- H. Withholding of funds for noncompliance. Pursuant to 34 CFR §300.222, if the department, after reasonable notice and an opportunity for a hearing under 34 CFR §76.401(d), finds that a public agency that has previously been determined to be eligible is failing to comply with any requirement described in 34 CFR §§300.201-300.213 and 34 CFR §300.608, the department must reduce or may not provide any further Part B payments to the public agency until the department is satisfied that the public agency is in compliance with that requirement.
- I. Reallocation of funds. If a new LEA is created, the base payment portion of the IDEA subgrant of the LEA that would have served children with disabilities now being served by the new LEA will be adjusted pursuant to 34 CFR §300.705(b)(2). IDEA funds to new charter schools that are LEAs will be allocated pursuant to 34 CFR §§76.785-76.799 and 34 CFR §300.705(b). Pursuant to 34 CFR §300.705(c), if the department determines that a public agency is adequately using state and local funds to provide FAPE to all children with disabilities residing in the area served, the department may reallocate any portion of the funds that is not needed by that public agency to assist other LEAs that are not providing adequate special education and related services to all children with disabilities residing in their service areas. The department may also retain those funds for use at the state level, as provided by 34 CFR §300.705(c).

Authority: 34 CFR §300.223 Joint establishment of eligibility.

- (a) **General.** The NMPED may require the LEA to establish its eligibility jointly with another LEA if the NMPED determines that the LEA will be ineligible under this subpart because the LEA will not be able to establish and maintain programs of sufficient size and scope to effectively meet the needs of children with disabilities.
- (b) **Charter school exception.** The NMPED may not require a charter school that is an LEA to jointly establish its eligibility under paragraph (a) of this section unless the charter school is explicitly permitted to do so under the State's charter school statute.
- (c) **Amount of payments.** If the NMPED requires the joint establishment of eligibility under paragraph (a) of this section, the total amount of funds made available to the affected LEAs must be equal to the sum of the payments that each LEA would have received under §300.705 if the agencies were eligible for those payments.

Authority: 34 CFR §300.203 Maintenance of effort.

- (a) **General.** Except as provided in §§300.204 and 300.205, funds provided to LEA under Part B of the Act must not be used to reduce the level of expenditures for the education of children with disabilities made by the LEA from local funds below the level of those expenditures for the preceding fiscal year.
- (b) **Standard.**
- (1) Except as provided in paragraph (b)(2) of this section, the NMPED must determine that the LEA complies with paragraph (a) of this section for purposes of establishing the LEA's eligibility for an award for a fiscal year if the LEA budgets, for the education of children with disabilities, at least the

same total or per-capita amount from either of the following sources as the LEA spent for that purpose from the same source for the most recent prior year for which information is available:

- (i) Local funds only.
 - (ii) The combination of State and local funds.
- (2) An LEA that relies on paragraph (b)(1)(i) of this section for any fiscal year must ensure that the amount of local funds it budgets for the education of children with disabilities in that year is at least the same, either in total or per capita, as the amount it spent for that purpose in the most recent fiscal year for which information is available and the standard in paragraph (b)(1)(i) of this section was used to establish its compliance with this section.
 - (3) The NMPED may not consider any expenditures made from funds provided by the Federal Government for which the NMPED is required to account to the Federal Government or for which the LEA is required to account to the Federal Government directly or through the NMPED in determining an LEA's compliance with the requirement in paragraph (a) of this section.

Authority: 34 CFR §300.204 Exception to maintenance of effort.

Notwithstanding the restriction in §300.203(a), the LEA may reduce the level of expenditures by the LEA under Part B of the Act below the level of those expenditures for the preceding fiscal year, if the reduction is attributable to any of the following:

- (a) The voluntary departure, by retirement or otherwise, or departure for just cause, of special education or related services personnel.
- (b) A decrease in the enrollment of children with disabilities.
- (c) The termination of the obligation of the agency, consistent with this Part, to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by the NMPED, because the child--
 - (1) Has left the jurisdiction of the agency;
 - (2) Has reached the age at which the obligation of the agency to provide FAPE to the child has terminated; or
 - (3) No longer needs a program of special education.
- (d) The termination of costly expenditures for long-term purchases, such as the acquisition of equipment or the construction of school facilities.
- (e) The assumption of cost by the high cost fund operated by the NMPED under §300.704(c).

Authority: 34 CFR §300.205 Adjustment to local fiscal efforts in certain fiscal years.

- (a) **Amounts in excess.** Notwithstanding §300.202(a)(2) and (b) and §300.203(a), and except as provided in paragraph (d) of this section and §300.230(e)(2), for any fiscal year for which the allocation received by the LEA under section §300.705 exceeds the amount the LEA received for the previous fiscal year, the LEA may reduce the level of expenditures otherwise required by §300.203(a) by not more than 50 percent of the amount of that excess.
- (b) **Use of amounts to carry out activities under ESEA.** If the LEA exercises the authority under paragraph (a) of this section, the LEA must use an amount of local funds equal to the reduction in expenditures under paragraph (a) of this section to carry out activities that could be supported with funds under the ESEA regardless of whether the LEA is using funds under the ESEA for those activities.
- (c) **State prohibition.** Notwithstanding paragraph (a) of this section, if the NMPED determines that the LEA is unable to establish and maintain programs of FAPE that meet the requirements of section 613(a) of the Act and this part or the NMPED has taken action against the LEA under section 616 of the Act and subpart F of these regulations, the NMPED must prohibit the LEA from reducing the level of expenditures under paragraph (a) of this section for that fiscal year.
- (d) **Special rule.** The amount of funds expended by LEA for early intervening services under §300.226 shall count toward the maximum amount of expenditures that the LEA may reduce under paragraph (a) of this section.

Authority: 34 CFR §300.206 School wide programs under title I of the ESEA.

- (a) **General.** Notwithstanding the provisions of §§300.202 and 300.203 or any other provision of Part B of the Act, an LEA may use funds received under Part B of the Act for any fiscal year to carry out a school wide program under section 1114 of the ESEA, except that the amount used in any school wide program may not exceed--

- (1) (i) The amount received by the LEA under Part B of the Act for that fiscal year; divided by
 - (ii) The number of children with disabilities in the jurisdiction of the LEA; and multiplied by
- (2) The number of children with disabilities participating in the school wide program.
- (b) **Funding conditions.** The funds described in paragraph (a) of this section are subject to the following conditions:
 - (1) The funds must be considered as Federal Part B funds for purposes of the calculations required by §300.202(a)(2) and (a)(3).
 - (2) The funds may be used without regard to the requirements of §300.202(a)(1).
- (c) **Meeting other Part B requirements.** Except as provided in paragraph (b) of this section, all other requirements of Part B of the Act must be met by the LEA using Part B funds in accordance with paragraph (a) of this section, including ensuring that children with disabilities in school wide program schools--
 - (1) Receive services in accordance with a properly developed IEP; and
 - (2) Are afforded all of the rights and services guaranteed to children with disabilities under the Act.

Authority: 34 CFR §300.208 Permissive use of funds.

- (a) **Uses.** Notwithstanding §§300.202, 300.203(a), and §300.162(b), funds provided to the LEA under Part B of the Act may be used for the following activities:
 - (1) **Services and aids that also benefit nondisabled children.** For the costs of special education and related services, and supplementary aids and services, provided in a regular class or other education-related setting to a child with a disability in accordance with the IEP of the child, even if one or more nondisabled children benefits from these services.
 - (2) **Early intervening services.** To develop and implement coordinated, early intervening educational services in accordance with §300.226.
 - (3) **High cost education and related services.** To establish and implement cost or risk-sharing funds, consortia, or cooperatives for the LEA itself, or for LEAs working in a consortium of which the LEA is a part, to pay for high cost special education and related services.
- (b) **Administrative case management.** The LEA may use funds received under Part B of the Act to purchase appropriate technology for recordkeeping, data collection, and related case management activities of teachers and related services personnel who provide the services described in the IEPs.

Puente para los Niños Committee

The Puente para los Niños Committee approves or disapproves all Puente para los Niños applications at the committee meetings or returns the incomplete applications to the LEA or REC for possible resubmission if additional or corrected information is needed. LEA and/or REC applicants may attend the Puente para los Niños Committee meetings. The Puente para los Niños Committee may request that a representative of the LEA or REC be available in person or via teleconferencing to answer questions when the LEA's or REC's application is being considered. - *be knowledgeable and interested in gifted education*
- *reflect the cultural diversity of the school's enrollment*
- *be made up of parents, community members, school staff, and students*

The advisory committee does NOT:

- *conduct MDT/IEP meetings*
- *review confidential information on individual students*
- *monitor the teacher, school or district regarding gifted education*

Guidelines for Curriculum:

Students receiving gifted services must be provided a differentiated education from that regularly provided by New Mexico school districts. It is important that teachers of gifted students be aware of the following curricular issues and resources:

- techniques for differentiation of curriculum
- methods and materials specific to gifted students
- scope and sequence of their district's regular curriculum-standards/benchmarks of district
- academic needs of individual gifted students in relation to the district's regular curriculum
- state standards
- district gifted curriculum guides
- district/community philosophy toward gifted education.

Focused monitoring:

Gifted Education in New Mexico is under the umbrella of Special Education. A gifted child in this state is defined as a school-age person whose intellectual ability paired with subject matter aptitude/achievement, creativity/divergent thinking, or problem-solving/critical thinking is so outstanding that a properly constituted Individual Education Plan (IEP) team decides special education services are required to meet the child's educational needs.

Each district is responsible for finding children who meet the criteria for services and have a demonstrated need and providing appropriate service. All of the applicable rules for children with disabilities apply to gifted children with **two exceptions:**

- child find in private schools, home schooled children, those enrolled in state supported schools, or children in detention and correctional facilities; and
- the provisions afforded children with disabilities regarding disciplinary changes of placement.

The LEA will follow NMPED's advice, to the extent it applies, as outlined in the following letters regarding Charter Schools.

Feb. 7, 2007, letter from Patricia Parkinson, EdD.

Is the LEA required to make existing behavioral supports that are available to all schools of the LEA also available to the charter schools that it has authorized?

20 USC §1413(a)(5)(A) of the Individuals with Disabilities Education Improvement Act of 2004 (IDEA) provides that the LEA “serves children with disabilities attending those charter schools in the same manner as the local educational agency serves children with disabilities in its other schools, including providing supplementary and related services on site at the charter school to the same extent to which the local educational agency has a policy or practice of providing such services on the site to its other public schools.” See also 34 C.F.R. §§300.209(b)(i) and 6.31.2.11(I)(1) NMAC. It is clear from these citations that the LEA must provide services to its charter schools on the same basis as it does to other schools within the District. Therefore, if it provides behavioral supports to its other schools within the District, it must provide those same behavioral supports to the charter school.

Must a charter school offer a continuum of services to students with IEPs enrolled in the charter school and must a representative of the LEA attend the student's IEP meeting?

Pursuant to §6.31.2.11(I)(2) NMAC, each charter school is responsible for serving children with disabilities in the same manner as in other schools within the LEA. Therefore, the charter would have to provide services to their special education students in the same manner as those services are provided at schools that are not Responsibilities to Charter Schools charters. However, based on the statute and regulations cited in the above paragraph, the LEA would have to provide the charter school with the same level of support that is provided in its other schools.

Does a representative of the LEA have to attend an IEP meeting for a student enrolled in a charter school?

The IEP team members are listed in 34 CFR §300.321(a). One of the team members is a representative of the public agency who is qualified to supervise the provision of special education services, and is knowledgeable about the general curriculum and the availability of resources of the public agency. 34 C.F.R. §300.321(a)(4). That description does not necessarily describe someone from the LEA administration, although it could. In comments to the IDEA regulations, the following was said about §300.321(a)(4):

Section 300.321(a)(4) incorporates the language in section 614(d)(1)(B)(iv) of the Act and requires the IEP Team to include a representative of the public agency who is qualified to provide or supervise the provision of specially designed instruction to meet the unique needs of children with disabilities; is knowledgeable about the general education curriculum; and is knowledgeable about the availability of LEA resources. A public agency may determine which specific staff member will serve as the agency representative in a particular IEP Team meeting, so long as the individual meets these requirements. It is important, however, that the agency representative have the authority to commit agency resources and be able to ensure that whatever services are described in the IEP will actually be provided.

71 Fed. Reg. 156, p. 46670 (2006). If no one within the charter school has the authority to commit agency resources, it may be assumed that someone from the LEA administration with that authority would have to attend the IEP meeting. The LEA could designate who they want as the agency representative, just so long as that person has authority to commit agency resources. Moreover, if the principal or special education coordinator of the charter school involved has the requisite authority to commit school resources to the services described in the IEP, no one from the LEA need attend.

The question of who has the authority to commit agency resources with respect to charters is answered by both IDEA and state law. IDEA requires an LEA to provide Part B funds to its charter schools on the same basis and at the same time it provides such funds to its other public schools, consistent with the State's charter school law. 20 USC §1413(a)(5)(B). Pursuant to 22-8-6.1 NMSA 1978, as amended, a state-chartered charter school is required to submit a school-based budget to the charter school division of the NMPED. The locally-chartered charter school will continue to submit its school-based budget to the local school board.

Once the budget is approved, a charter school representative has the authority to commit resources out of the charter school budget for services required by an IEP. If the required services are within the charter school budget, an LEA representative need not attend the student's IEP meeting. However, if the services required by the student's IEP exceed the budget of the charter school, a representative of the LEA would need to attend IEP meetings since a commitment of LEA resources would be required to comply with the student's IEP.

December 5, 2000, letter from Michael J. Davis

The SDE advises as follows:

- charter school budgets should be reviewed by the schools and the local district to ensure that enough funds are available from the state equalization guarantee and federal IDEA funds to meet each school's needs for special education and related services. All future charter school budgets will be required to allocate enough funds to meet each school's foreseeable special education responsibilities before the budgets will be approved by the SDE.
- Charter schools may provide special education and related services to eligible students with their own staffs or through contracts with their districts, regional cooperatives or other qualified service providers.
- A charter school should only ask the district to provide additional services for students with special needs if the school has exhausted its state and federal special education funds and budgeted emergency reserves. In every such case, the district must participate appropriately in the determination of eligibility and the development of the student's individualized education program (IEP).
